

Paying and billing

One flat fee, charged by Stripe, with your card, invoices and cancelling all in one place.

What it costs.

One technician: \$12 USD a month, or \$120 a year. A business: \$15 a month for the first technician and \$9 for each after, or \$150 and \$90 a year. Prices are in US dollars.

Saving never changes what you pay.

Nothing on your profile touches your bill by itself. Only two things do: Finish paying, and the Remove this technician button, which tells you the new amount before it does anything.

1 Signed up but not paid yet? Press Finish paying at the top of your profile.

Pick monthly or yearly and press the green button. Stripe takes the card. Until then the map does not show you, and nothing has been charged.

Your listing is saved, but it has not been paid for yet.

Nothing has been charged so far. Owners cannot see you until it is paid for. Pay below, then switch yourself on at the top of this page. Card details are handled by Stripe, and we never see your card number.

Monthly
\$12 USD a month,
cancel any time

Yearly
\$120 USD a year,
two months cheaper

Finish paying, \$12 USD a month

Not paid yet [Credentials verified](#)

2 Card, invoices and cancelling: Email and billing, then Manage or cancel my subscription.

It is near the bottom of your profile. Stripe's page opens, signed in as you. Change the card there, download any invoice, or cancel with one click. Cancelling keeps your listing up until the end of what you already paid for.

Give the SVG to a wrap shop or a printer, since it stays sharp at any size.

Email and billing

☐ **Tell me when SkillAbove releases a new tool.**

Nothing else, and you can turn it off any time.

You are paying for 1 technician. Add or remove them under your service areas above. Your card, invoices and cancelling all live in Stripe's portal.

Manage or cancel my subscription

Cancelling takes one click and we will not put you through a phone call to do it. Your listing stays up until the end of what you already paid for. Anything else, write to support@yellowpagesrv.com.

Passkeys

Sign in with your face, fingerprint or device

[See my page](#)[Something wrong?](#)

3 A payment that did not go through shows as **Payment problem at the top of your profile.**

Your listing comes off the map until it is paid.

Update the card through Manage or cancel my subscription and you are back on; the switch at the top will not do it until then.

? Still stuck?

Receipts come from Stripe by email each time you are charged. Charged twice, or a number that does not match this page? Write to support@yellowpagesrv.com with the date and amount and a person will sort it out.

4 Adding or removing a technician on the business plan.

Under Your technicians and where they work, **Add a technician** shows the new monthly amount and asks before charging. **Remove this technician** does the same the other way; what is left of the current period stays as a credit against your next bill, and nothing is refunded to the card.
