

Reading a technician's page

Everything a technician has told us, on one page: what they do, what they charge, when they work and how far they come.

It all comes from the technician.

Rates, hours and the area are what they typed. They can be out of date, and nothing on the page is a quote. Agree on the price before any work starts.

What Verified means.

Verified

means the technician has put documentation on file for every certification on the listing. We keep the document; we do not confirm it with the issuer. Ratings are typed by the technician from their own review pages. Neither is a guarantee of the work. More on Verified.

1 The top: who they are, their badges, and the two numbers that matter.

Gray badges are the work they do. Gold is training, purple a specialty, green is documentation on file, blue-gray is what they say about themselves, like Insured. Under the line: where they are based, how far they travel, the call out fee and the hourly rate. **Call anytime** under the buttons means they take calls at any hour. **Find a technician** at the top left goes back to the map.

Call anytime. This technician takes calls at any hour.

About Example Mobile RV Service
Mobile RV repair around Oklahoma City for eleven years. Electrical, plumbing, water heaters, furnaces and slide rooms.

2 Certificates and hours.

Document on file on a certificate means the technician attached it and you can usually open it. **Stated** means they say they hold it and nothing is attached. Hours are a guide, not a promise, and **By appointment** means call first.

Training and certificates

Domestic certified

Issued by Dometic

[See the certificate](#)

Document on file

RVTI master certified

Issued by RV Technical Institute

Good through 2027-10-14

[See the certificate](#)

Document on file

Document on file means the technician attached the certificate and we keep it. **Stated** means the business says they hold it and nothing is attached. Neither is a guarantee of the work, and plenty of good technicians hold no certificates at all. [What Verified means](#)

When they work

Calls

Anytime

Mon–Fri

8am–5pm

Sat

By appointment

Hours are a guide, not a promise. Call to be sure, especially for a same-day job.

Rates

Call out fee

\$85

Labor

\$135 per hour

3 Rates, the area they cover, and their number.

Mileage usually starts after some free miles; the card on the map draws both rings. The area lists the towns they reach. Not sure you are inside it? **Look on the map** and put in where you are.

Rates

Call out fee	\$85
Labor	\$135 per hour
Mileage	\$1.50 per mile

Rates come from the business and can be out of date. Nothing here is a quote. Agree on the price before any work starts.

Area covered

Based in Oklahoma City, OK and traveling up to 40 miles: Purcell, Dibble, Washington, Wayne, Blanchard, Noble, Lindsay, Lexington, Maysville, Alex and the surrounding area.

4 Pass it on with Share.

Share at the top right sends the page to whoever you like, and the square code at the bottom opens it on another phone.

? Still stuck?

Rates or hours missing means the technician has not filled them in; ask when you call. If a page will not open, that listing is not on the map right now. Anything else, write to support@yellowpagesrv.com.
